OBJECTIVE

Full Stack Developer with 3 years of hands-on experience in Java, Spring Boot, ReactJS, and DevOps tools like Docker. I am skilled in building and maintaining scalable web applications, improving user interfaces, and optimizing backend performance. I am looking to bring technical expertise and a problem-solving mindset to a collaborative development team within a respected organization.

EDUCATION

Bachelor of Engineering in Computer Science
PES University, Bangalore, India   2017 - 2021

WORK EXPERIENCE(3YEARS)

SDE 1   Apr 2022 - Present
CSG International
Invision(Ascendon Product)   *Bangalore, Karnataka*

- Proficient in requirements analysis, high-level design, low-level design, and complex code development for more than eight features.

- Proficient in building responsive user interfaces using ReactJS and also migrating legacy Angular codebases to ReactJS as a part of codebase migration to improve performance and maintainability.

- Developed and maintained over 15 scalable APIs and microservices using Java Spring Boot, improving system performance by 30% and reducing response times.

- Utilized React Router and Angular Router to implement smooth and intuitive navigation within applications, enhancing user engagement and facilitating a logical flow between different sections.

SDE Grad   Oct 2021 - Mar 2022
CSG International
Invision(Ascendon Product)   *Bangalore, Karnataka*

- Implemented various continuous integration and continuous deployment (CI/CD) pipelines using Azure DevOps for multiple projects, resulting in a 30% reduction in deployment time.

- Designed and implemented a blue/green deployment strategy using Azure DevOps, AWS, and Terraform to optimize application delivery, enabling near-instant rollbacks, minimizing downtime, and ensuring uninterrupted service availability with automated infrastructure provisioning and scalable, reliable updates.

- Worked on various AWS services such as EC2, S3 and CloudWatch to architect reliable and cost-effective cloud solutions, resulting in improved application performance and availability.

SKILLS

Web Development	JavaScript, TypeScript, Spring REST, Spring Security, Microservices, HTML5
Frameworks/Libraries	ReactJS, Spring Boot, Material UI
Database	PostgreSQL, MySQL
Programming Languages	C, C++, Java
Problem Solving	Debugging, Troubleshooting, Design Patterns
Version Control	Git, GitHub
Development Tools	Visual Studio Code, Maven, IntelliJ IDEA
DevOps Toolset	Azure DevOps, AWS EC2, AWS S3, AWS CloudWatch, Terraform, Docker
Cross-Functional Collaboration	Communication, Teamwork
Mentorship	Guiding junior developers, Knowledge sharing sessions

PROJECTS

- **West Central Transportation(WCT)**

  - This is a full stack application which is being currently used by the client. I have developed this using technologies like ReactJS, Material UI, Java SpringBoot, PostgreSQL.
    Website link - https://www.westcentraltransportation.com/

  - This application is used by transportation company which keeps tracks of driver details, assigns rides to drivers. It has an Admin dashboard and a separate url for driver login

- **Portfolio Website:**

  - Developed a portfolio website using technologies ReactJS, Tailwind CSS, Framer motion.
    Website link: https://deekshith-portfolio.vercel.app/

CERTIFICATIONS

- Master Java, Spring 6 and Spring Boot 3 with JDBC, JPA, Security, Docker and Microservices from Udemy

- Web Developer Bootcamp from Udemy.

- Ordered Data Structures from Coursera.
